RE: First Office Action Response- Petition for Extension of Time 09/583,336

Inventor: William Reeves

Filing Date: 5/31/2000

Dear Mr. Kalinowski,

11/20/02

Attached please find a copy of my Petition for Extension of Time regarding my reply to your first office action of 09/583,336 application. I wanted to make sure I hit the two month date for an extension in getting you a reply.

I have mailed a package to you which includes a detailed response to all your objections to my Art in the application, I have reorganized the patent body and separated the abstract as you requested, and I have also provided a copy of a revised set of claims for this patent which further clarifies my art and aids in differentiating it from inferior and significantly different prior art which has been cited.

You should be receiving the package shortly by US mail. I look forward to answering any questions you may have or aiding you in any way to understand my art. I would also like to point out that this application is related to patent 6,467, 690 which has recently issued (copy attached) and to applications 09/578,884 and 09/597,107 which are pending. When I originally wrote these four patent I had envisioned an overall novel new "system" which would be comprised of novel new components. As it turned out it was much more practical and simple to break them into four separate patents.

If you need to reach me the best way is at my office 203-288-1588 or via bill@meddatanet.com.

Sincerely,

William Reeves, inventor
